

Silent Auction Service

The Red Card Events silent auction service is a great way to raise funds for your chosen cause.

The calibre and range of products we carry makes it an attractive addition to your event and offers a fabulous way to generate extra revenue.

For the silent auction we would set up a range of 70-30 signed memorabilia items from the worlds of sport or entertainment for your guests to bid on. A reserve price is set for each item and anything raised over the reserve is split 70-30 in favour of the organiser.

If you are hosting a mainline auction, we can also provide hospitality packages or higher end memorabilia items on the same reserve then 70-30 split basis (please see our mainline flyer for further details).

We would be more than happy to meet with you to discuss our services, whether it be for this or future events.

We look forward to hearing from you soon.
